NFC Media Sharing Policy

As a football club, NFC hosts matches, training, and events where photography and video footage may be taken. For NFC coaches and trainers, this is an important way that they help NFC players develop and learn football.

NFC also collects and uses photos and video footage from training, matches, and events for training and education purposes, club marketing and communications, and information sharing purposes within the club and with 3rd parties when relevant and in accordance with the NFC Privacy Statement . This can include players, trainers, coaches, and spectators.

NFC wishes to ensure photography and video footage taken within the club premises is done so appropriately. We do not believe that parents and care-takers should be prevented from taking pictures, or filming, their children as these are normal family practices and help mark milestones in a child's life. We believe that proportionate controls on the use of photographic equipment (cameras, and videos, including mobile phones) is part of general safeguarding good practice in any club.

As photographs and video footage are considered 'personal data' under Dutch and EU law, NFC requires our members' or their care-takers' explicit consent to ensure that we can continue to have photography and video footage taken within the club premises.

As a club we will do this by:

Obtaining explicit consent from NFC players and/or their care-takers.

Limiting the distribution of photography and video footage to club-approved channels (NFC website, club TV, NFC newsletters, NFC whatsapp communities and groups, official NFC social media accounts)

Being vigilant about any inappropriate usage of photography or video footage; concerns regarding inappropriate, or intrusive, photography should be reported to the NFC Board.

As a way to help

Players and parents are allowed to film on personal devices for their own personal use; see the KNVB policy [HERE](#) .

Cameras are banned from changing rooms and bathrooms.

If a match is being recorded, the coach or trainer who would like to record should inform and request permission from the visiting team and coach before the match begins.

Children should be informed that if they have concerns they can report these to the coach or team manager.

Please note, the use of video equipment as a legitimate coaching aid is permitted provided that this is part of the coaching program and material taken in connection with coaching, will be stored securely and deleted when the material is no longer needed.

Thank you for helping us protect the privacy of our members and for contributing to the growth of a more engaged NFC community!
